Summary

From the first "Hello World" console log to the building websites and team projects I fell in love with programming and since then my passion for it has kept growing every day. As the industry advances, I hope to one day be on the front lines where my potential will hopefully be fully used.

Programming Skills

HTML / CSS	Git / Github / GitLab
Python	Angular / React
JavaScript / TypeScript	Figma / UI design
Docker	SQL

Also familiar with

Node. JS / Express.js	AWS
Firebase	Webpack/ Babel/ Vite

Work Experience

- **Velsera - Technical Support Intern**
  (15.5.2023 – 15.8.2023) – Python/ SQL/ Debugging
  Working as tech support for a bioinformatics platform. Using SQL data and writing automation scripts in python.

- **Seven Bridges - Software Engineer Intern**
  (8.8.2022 – 8.11.2022) – JavaScript / Angular
  Working with a team of people on an angular application as a part of an internship.

- **Freelancing** (making websites for small businesses) – https://sushimaster.rs || https://ortodoxfashion.rs

- **Super Ego Holding - Reservation Dispatch Agent**
  (1.12.2022 – 10.5.2023) - tracking trucks in America, working in complex logistics systems, and communicating with drivers in English.

- **Hospitality industry – Chef/Head Chef**
  (5years while finishing collage) - worked various jobs in the hospitality industry in Serbia and abroad. Where I developed time management, organization, and problem-solving skills.

My Projects   More At – (link)
